The snow all left town Saturday night. Whether this was on account of the enforcement of the Sunday closing law, or in view of the incursion of the Republican administration in this county, the Lexington Leader is not prepared to say.

The local doctors at Paducah have resolved that it is unprofessional to use their names in newspapers in connection with accidents, surgical operations, etc., and will hereafter request that their names be omitted from reports of such cases by the press. If this thing keeps on it will soon be unprofessional for a physician to have his name on the tin doorplate of his office.

"The Burglar."

There was an appreciative audience at the Opera-house last evening to witness that delightful melodrama, "The Burglar."

The company was by all odds the most talented that has appeared in this city during the present season, the role of William Lewis the Burglar, maintained by Mr. Eugene Moore, being replete with dramatic interest and tender pathos.

The part of Alice, the burglar's wife, is one of great difficulty, but it was ably sustained by Mrs. Anna Boyle Moore—the winsome Anna Boyle who has delighted thousands with her charming impersonation of "Fanchon" in years gone by.

Messrs. A. Gordon-Robinson, Walton Townsend and Edward Craven were very clever, while Mr. T. A. Russell was a typical law student. Misses Beatrice Ingram and Margaret Pierce were exceptionally good in their respective parts.

Little Gertrude Clark as "Dinah" was exceptionally "cute" and admirable, acting her part with a naturalness that was captivating.

It is no exaggeration to say that the company was deserving of a full house; and if that praise of Philadelphia and Mr. Sterling and Winchester, which points they play next, do not embrace the opportunity, they will miss one of the best dramatic entertainments now before the public.

"CRAZED WITH TOOTHACHE."

Paul Wilson goes to the bushes and hangs himself.

Paul Wilson, aged about 40, whose home was five miles from Concord, became crazed from toothache.

Last Friday night he went to the bushes and some time afterward his body was found hanging, life being extinct.

Mr. Wilson was a widower, and made his home with Mrs. Fry, his sister-in-law. He leaves several children.

"LOOK OUT!"

Have the Cemetery Companies Made Report on the Late Requisites?

A law, which went into effect January 1st, 1894, requires Directors or Trustees of incorporated cemeteries to make annual reports to the stockholders and owners of all money, lands, &c., in their possession, together with their liabilities, &c.

In case of failure to do so, the first penalty is a fine of \$10 for each Director, and for each day after the report is due there is an additional penalty.

And any officer who fails to enforce this act is liable to a fine of \$25.

Some of our Cemetery folks had better look the matter up.

Of the hangings ninety-one were in the South and forty-one in the North; of the lynchings 95 were in the South and twenty-four in the North.

MASON COUNTY TEACHERS.

They can Get Half of the January Payment Next Saturday.

The following is self explanatory.

FRANKFORT, Ky., Jan. 3d, 1895.

To County and City Superintendents: I regret to have to inform you that the State Treasurer is unable to honor in full my warrant for January payment of the remaining School Fund for the current year. Checks for one-half the amount will be sent you next week.

Time for you to make payment to that extent on the second Saturday, the 12th inst. in full of such of our claims as little disappointment as possible may cause. Yours truly, E. PORTER THOMPSON, State Superintendent.

And thus stands Democratic old Kentucky.

But March, isn't it about time you were fooling your readers more by telling them there is plenty of money in the Democratic State Treasury at Frankfort?

FROM LAKE TO RIVER.

The Proposed Ship Canal Across the State of Ohio.

Portsmouth Blade.

There has been some misunderstanding as to the nature of the bill making an appropriation by the National Government for the survey of a ship canal from some point on the Ohio river to Lake Erie. For the information of such of our readers who do not understand the merits of the bill we reproduce it. It reads as follows:

"That the Secretary of War be authorized and directed to appoint a board of three engineers of the army, whose duty it shall be to survey the Mississippi and Ohio rivers and such branches thereof and such river and stream channels as may in their judgment present available portions of a continuous canal connecting the waters of Lake Erie with the Ohio river through the state of Ohio, and to report as to the feasibility and advisability of improving and widening such canal to seventy feet at the water level and deepening the same to seven feet, and by construction of new locks, not less than 150 feet in length, and to report to the next session of Congress with detailed plans and an estimate of the cost of such improvement; and \$20,000, or so much thereof as may be necessary for the construction of such canal, is hereby appropriated, provided, that nothing herein shall be construed to commit the Government to proceed with the construction of said improvement."

This improvement is within the reach of the people of Ohio, West Virginia and Kentucky, with their vast deposits of coal and other resources that will find a market in the West, and are at our back. They will receive even larger benefits than the state of Ohio, and will join in demanding that the canal be opened to the lake for their coal. There is no coal in the North-west, and the Northwest will join Ohio, Kentucky and West Virginia in assisting themselves to cheaper fuel and more of the comfort of life. It is human nature they should do so.

The people who are looking upon the construction of this great waterway to the lakes as an idle dream are suffering from a want of intelligence.

The canal should be built, not today, nor tomorrow, but it will be built.

BOMING!

SOME SEQUELS TO THE LATE REPUBLICAN VICTORY.

Returning Prosperity—Factories Starting Up—Work for American Workmen.

After the election THE LEADER argued that Republican success meant a restoration of confidence, the opening of American factories and workshops, the return of business to its wonted channels, profitable and steady employment for American workmen, and an era of renewed prosperity all along the line.

That the hopes held out by THE LEADER were not false ones is being fully demonstrated. Below are a few evidences of the business revival that tread on the heels of the great Republican victory.—[Enron.]

A first-class baker can secure steady employment of Z. C. Flaeger, Millersburg, Ky.

The Dayton Bugzy Works, Dayton, O., wants to employ a good blacksmith. Address Morris Woodhill.

Redding & Co., Dunkirk, Ind., and G. A. Stratton, Richmond, O., will give steady employment to a first-class harber.

The Midland Steel Company, Muncie, Ind., is advertising for its pay-roll almost daily. A large number are still wanted.

A large number of men are wanted at Fairmont, W. Va., to work on the construction of an ice plant and storage warehouse.

Charles J. Wolfram, Cleveland, O., wants to employ two wood engravers, one designer and one draughtsman. Steady employment.

The William Mill Ice Machine Company, Cincinnati, capital stock \$50,000, formed to manufacture ice-making and crushing machines and devices, has been incorporated.

The M. T. Gibson Manufacturing Company of Columbus, O., and the Louis Duemmer Pattern Works, Hamilton, O., are each in need of the services of experienced pattern makers.

The Lake Erie and Western Railroad Company is now seeking for a man to fill the position of yardmaster at Muncie, Ind., at a salary of \$90 per month. None but competent and experienced men need apply.

There is a big demand for boys at the several glass factories in Muncie, Ind. Employment is given to men who have boys and will remove to Muncie, in order to secure the services of the latter. The wages earned by boys thus employed are very satisfactory.

The Nelson Glass Company at Muncie, Ind., will start a new plant within the next ten days, and will give employment to 130 men. Applications forwarded to the company will receive prompt attention, as it is desired to have the full number of men engaged before the day of starting.

The Morris Autograph Company of Cincinnati, capital stock \$20,000, which purposed the manufacture and sale of store and office fixtures, appliances, cash registers, &c., has been incorporated by Joseph S. Peebles, W. W. Hinton, O. J. Carpenter, Rankin D. Jones and Joseph S. Trevor.

Reports come that within the past few days there has developed a demand for all kinds of laborers in the Indiana gas belt. Nearly all the factories that have been closed down are being put in operation, and there are very few idle men in any of the manufacturing cities and towns of the state.

The managers of the American Tinplate Factory at Elwood, Ind., report that they will start the new addition of four mills about January 15th, when about 250 extra men will be given employment.

The situation at the other manufacturing plants remains unchanged, and the outlook for 1895 is exceptionally bright.

During the coming year four or five hundred miles of new railroad will be constructed in Indiana. Most of the new lines have been projected for a long time, and on some of them grading has been done, in order to keep up the franchise. During the year 1894 only eighty extra men will be given employment.

The following articles of incorporation were filed in the office of the Secretary of State at Columbus, O.: The National Printing Company, Columbus, capital stock \$25,000. The Bank Branch and Supply Company, Lorain, capital stock \$30,000. The Hopley Printing Company, Bucyrus, capital stock \$20,000. The American Lumber Company, Cleveland, capital stock \$5,000.
